Skin cancers 7. Cleft lip and palate 8. Congenital anomalies of the hand 9. Maxillofacial traumas 10. Nerve entrapments 11. Surgeries for aesthetic purposes
Resources	<ol style="list-style-type: none"> 1. Grabb and Smith's Plastic Surgery, Charles H. Thorne, 2013 2. Reconstructive Surgery: Principles, Anatomy, and Technique

Internship Courses (Weeks)	Internship Topics
1st Week	Wounds, burns, skin cancer, flaps and grafts, maxillofacial and hand traumas, hand and lip anomalies, nerve entrapments
2nd Week	
3rd Week	
4th Week	
5th Week	
6th Week	

Number of Questions in the Internship		
Exam Type	Theoretical	Application
Final (Oral)	40	20
Make-up (Oral)	40	20

Evaluation System		
Semester Studies	Number	Total Contribution (%)
Written Exam	1	40
Oral Exam	1	40
Internship Performance	0	0
Sample Application	1	20
	Sum	100
Contribution of Semester Studies to Success Grade	1	100
Contribution of Final Studies to Success Grade	0	0
	Sum	100

Explanation: While calculating the contribution rates of the evaluation system, SANKO University Associate Degree and Undergraduate Education and the Examination Regulation and the Faculty of Medicine Education and Measurement and Evaluation Directive are valid.

Student Workload Table			
Events	Number	Duration (class hours)	Sum
Course Duration (Including Exam Week)	1	16	16
